ACCOUNTANT'S CERTIFICATE

July 6, 2022

Board of Directors 64th Ave ARI Authority

Re: Authority Eligible Improvements Cost Certification

This report summarizes the results of the procedures we have performed related to substantiation of the of Authority Eligible Costs to be paid by 64th Ave ARI Authority (the "Authority").

Schedio Group LLC ("Schedio Group") the Authority's independent engineer, has reviewed certain underlying documentation and has submitted an Engineer's Report and Verification of Costs Associated with Public Improvements No. 21, dated June 16, 2022, verified \$987,037.00 as for soft, indirect and hard costs associated with the design and construction of Public Improvements and therefore eligible for payment. Schedio Group also verified that the costs associated with Public Improvements to be reasonable when compared to similar projects during similar timeframes in similar locales.

We have reviewed certain underlying documentation supporting Exhibit A as necessary and appropriate, in accordance with accounting principles generally accepted in the United States of America, to verify the accuracy of the cost summary set forth in Exhibit A. I have discussed the allocation of costs relating to various invoices Schedio Group, to determine the reasonableness of the allocation. Based upon those discussions and the above-described procedures, the costs in the amount of \$987,037.00 as set forth in Exhibit A represent costs incurred for soft, indirect and hard costs associated with the design and construction of Public Improvements and eligible to be paid by the Authority.

We have also reviewed invoices provided by McGeady Becher PC related to legal service provided for the construction of public improvements in the amount of \$429.00 during May 2022. Based on this review these costs should be eligible to be paid by the Authority with bond funds

We were not engaged to and did not conduct an examination in accordance with generally accepted auditing standards in the United States of America, the objective of which would be the expression of an opinion on the financial statements of the Authority. Accordingly, we do not express such an opinion. We performed our engagement as a consulting service under the American Institute of Certified Public Accountants' Statement of Standards for Consulting Services. Had we performed additional procedures; other matters might have come to our attention that would have been reported to you.

We are not independent with respect to the Authority.

ENGINEER'S VERIFICATION

Timothy A. McCarthy, P.E. / Schedio Group, LLC ("Independent Consulting Engineer") states as follows:

This Engineer's Verification is associated with the attached Engineer's Report dated June 24, 2022.

The Independent Consulting Engineer is an engineer duly qualified and licensed in the State of Colorado with experience in the design, construction, and verification of Public Improvements of similar type and function as those described in the attached Engineer's Report.

The Independent Consulting Engineer has reviewed available construction and legal documents related to the Public Improvements under consideration to state the conclusions set forth in this Engineer's Verification.

The Independent Consulting Engineer performed a site visit on June 14, 2022 and determined that Public Improvements considered in the attached Engineer's Report were constructed in general accordance with the approved construction drawings.

The Independent Consulting Engineer finds and determines that costs associated with Public Improvements considered in the attached Engineer's Report, from May 26, 2022 (date of Martin/Martin Consulting Engineer's Invoice No. 19.0281-00074) to June 9, 2022 (date of Ground Engineering Invoice No. 214005.00-15), are reasonably valued at \$987,037.00.

In the opinion of the Independent Consulting Engineer, the above stated value for soft, indirect, and hard costs associated with the design and construction of the Public Improvements is reasonable and consistent with costs of similar improvements constructed for similar purposes during the same timeframe and similar locales.

Therefore, the Independent Consulting Engineer recommends that 64th Ave ARI Authority make payments to vendors in the amounts listed below:

| American Civil Constructors | payment in the amount of | \$ 822,651.82 |
|------------------------------------|--------------------------|------------------|
| Ground Engineering | payment in the amount of | \$ 9,522.25 |
| Martin/Martin Consulting Engineers | payment in the amount of | \$ 138,105.00 |
| Schedio Group LLC | payment in the amount of | \$ 1,757.93 |
| Silverbluff Companies | payment in the amount of | \$ 15,000.00 |
| TOTAL> | | \$ 987.037.00 |

Re: 64th Ave ARI Authority

Reported Fatality at the Project Site

Dear Mr. Farbes:

American Civil Constructors LLC ("ACC") is in receipt of your request for updated information pertaining to the fatality that occurred at the Project on August 23, 2021, as described in your letter dated September 7, 2021. ACC states that the work at the Project is mostly complete, and all work involving the installation of the pipeline is complete. ACC completed its work in full compliance with all safety and health regulations and requirements.

In response to the fatality event ACC held a safety stand-down with its crews on the Project and retrained its operators. Further, ACC implemented additional checklists as part of its morning meeting to help ensure that this type of incident did not occur again.

Subsequent to the incident, on April 7, 2022, an investigation was performed on the equipment at issue with representatives of ACC, Honnen, and John Deere in attendance. No patent defects were observed relative to the machinery involved in the incident. However, we anticipate the possibility of additional observation and testing of the equipment to the extent a claim or lawsuit is filed in relation to the incident. Based upon our interviews with the operator of the equipment and examination of the machinery itself, the cause of the incident is undetermined at the present time. At the present time, however, ACC has no information and/or knowledge of any action and/or inaction by the 64th Ave ARI Authority that caused and/or contributed to the subject incident and is fully aware of its indemnity obligations under the agreement relative to any and all safety precautions, programs and protections for operations at the site.

As we discussed, OSHA issued one citation to ACC for a violation of the OSHA general duty clause, alleging that employees were exposed to struck-by injuries from the unexpected release of an excavator bucket. ACC filed a notice of contest and is challenging the citation as the unexpected release of the bucket was due to unforeseen circumstances and/or events despite

the safety protocols, programs and precautions instituted by ACC at the site. The operator at issue was fully trained and experienced in the excavation work being performed at the time. We do not yet have a hearing date in this matter as discovery recently started between the parties.

ACC takes its obligations with respect to safety very seriously, and immediately implemented steps to try and prevent any further occurrences. If you have any further questions, please do not hesitate to contact me.
